CPT Codes

78608 PET Brain Imaging – metabolic evaluation

78815 PET/CT Tumor Imaging – base to mid thigh

78815 PET/CT Tumor Imaging – prostate ca (Axumin)

78816 PET/CT Tumor imaging – whole body (to include: Melanoma or Myeloma)

78816 F-18 Bone scan – whole body

Patient Prep for ALL PET/CT and Brain Imaging Patients:

- Nothing by mouth except water 4 hours prior to appointment. Encourage hydration. High protein, low carbohydrate diet the day before the scan. Avoid bread, potatoes, cereal, cookies, pasta, rice, candy, sugars, nuts, fruit, juice, PNB.
- No vigorous exercise 24 hours prior to appointment.
- Dress warm and comfortably.

Diabetic Patients: In addition to the above preps, diabetic patients must adapt medications as listed below:

- Insulin pumps are NOT to be discontinued. Patients should be scheduled early morning with the pump kept on night/basal setting.
- If the patient takes long-acting insulin at bedtime, continue dose as usual and schedule first appointment in the morning.
- Other short-acting medications should be discontinued 4 hours.
